

## OSKLEN SPRING SUMMER 2015 INHOTIM

"Inhotim is a singular experience. A must see. Which excites, entices and educates. Browsing among its works of art, its architecture and its nature, you feel touched. To me, the desire to express this experience led me to photograph and film the way I perceive and experience Inhotim. Through fashion design, I am able to translate the artistry of my photography and film into a wearable experience."

Osklen and Inhotim. Two universes expressing a movement of integration between nature, art and knowledge, to build a new concept of life. An exercise for a simple, smart, sensitive, sustainable and beautiful life.

And from this strong conceptual, aesthetic and philosophical affinity came the inspiration for the creation of the Inhotim collection for Osklen Spring Summer 2015.

**Colors:** white, off-white, black, red, tangerine, imperial green and royal blue.

**Shape:** following the lines of the body, balanced proportions and considered volumes; mini and long lengths.
